

PropEdge Scoring Tier Reference

Tier Definitions

Tier	Icon	Score Range	Description
Ultimate	★	90–100	Highest confidence plays — strongest model alignment
Prime	🔥	80–89	High confidence, strong edge plays
Strong	💪	70–79	Solid plays with meaningful edge
Value	💰	60–69	Positive EV plays worth considering, lower confidence

Directional Filters (applied across all tiers)

Filter	Description
Hot 🔥	Props trending up based on recent L10 performance
Overs 📈	Model favors the over on this prop
Unders 📉	Model favors the under on this prop

Sport Coverage

- NBA 🏀
- NHL 🏒
- MLB ⚾
- NFL 🏈

Scoring Inputs (factors that contribute to model score)

- L10 hit rate for the prop line
- Defensive matchup rating vs. opposing team
- Line value relative to FanDuel market
- Injury/lineup context modifiers
- Home/away and back-to-back adjustments

Parlay Guidelines

- Stack Ultimate + Prime tiers for highest-confidence parlays
- Avoid mixing Value tier into parlays — use as singles only
- EV calculations displayed in Parlay tab per combination

Daily Build Notes

- Props refresh at 11:30 AM when next day's lines are available
- Always confirm lineup and injury status before locking parlays
- FanDuel deep-link buttons available per prop card for direct bet placement
